

The Northern Ohio Chapter of the  
American Society of Safety Professionals  
Presents:

**“Design-In-Safety for Sustainable Business Results”  
A 2-Day “How To” Workshop for  
Health & Safety Professionals, Designers, Engineers,  
Project and/or Construction Managers**

**Professional Development Conference  
Crown Plaza Cleveland South Hotel  
Thursday, October 10 & Friday October 11, 2019  
Daily Workshop 8:00 am – 4:00 pm**

**Hotel Address: 5300 Rockside Road, Independence, Ohio 44131**

What participants will learn:

How to identify, justify, develop, explain, demonstrate and incorporate Prevention through Design (PtD) solutions into capital projects, work activities/systems and organizational decision-making that drive sustainable business results – safety, health, productivity and quality.

1.4 CEU's to be awarded upon completion.

Participation at this conference qualifies for one Ohio BWC Safety Council Rebate Program external training credit with submission of certificate of attendance to your Safety Council sponsor by June 30, 2020.

**NOTE: Students will need to bring/purchase a copy of the ANSI/ASSP Z590.3-2011(R2016) standard. To purchase visit [assp.org](http://assp.org) Cost for ASSP members is \$95.00 and \$110.00 for non-members.**

**Workshop Instructors:  
David Walline, CSP, Walline Consulting, Ltd.  
Guest Presenter  
Michael Toole, PE, PhD  
Dean – College of Engineering, University of Toledo**

**Our Presenters:**

**Dave Walline** has been a Certified Safety Professional (CSP) since 1985 and is a 40-year Professional Member of American Society of Safety Engineers (ASSE). Dave’s work experience, passion and consulting practice encompass Prevention through Design (PtD), Risk Assessment and Serious Incident & Fatality Prevention.

- Dave’s spent a combined 42 years in Facility, Division, Business Unit and Global EHS Roles for General Dynamics Corporation and Owens Corning Corporation where he retired at the end of 2013.
- Among his notable successes has been the development and implementation of global risk assessment and PtD processes and training programs within the organizations he has worked. Dave has successfully influenced the design and risk mitigation levels of projects world-wide (both large and small) spanning over his working career.

**T. Michael Toole** became the Dean of the College of Engineering at the University of Toledo in August 2017 after spending 18 years at Bucknell University as an Associate Dean of Engineering, a Professor of Civil and Environmental Engineering, and the Director of the Institute for Leadership in Technology and Management. Mike received his B.S. from Bucknell and his Master and Ph.D. from M.I.T. A professional civil engineer registered in Pennsylvania and a Fellow in the American Society of Civil Engineers, he initiated and maintains the website [designforconstructionsafety.org](http://designforconstructionsafety.org). He has published on construction safety (especially designing for construction safety), construction innovation, and project management.
